

lexiCan Pro Edition

How to upgrade: install your licence

Thank you for buying lexican! Installing your licence is very easy. With few steps you upgrade from lexican Standard Edition to the unlimited Pro Edition. This document tells you how.

Requirements

I. **lexican Standard Edition is installed**

In order to use the unlimited lexican Pr-Edition, it is necessary to have the lexican Standard Edition installed and running on your computer. Should you not have installed the lexican Standard version please download it for free under www.lexican.net.

II. **License file**

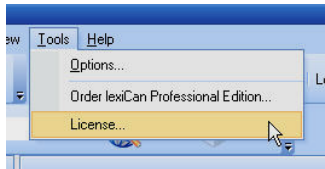

With same mail, with which you received this document, you also received a lexican licence file. It carries the ending ".xml".

Steps to Upgrade

1. Please detach the license file you have received on a local folder on your computer (for example: "C:\lexican")

Please note: keep your licence file carefully, even after the installation. It is your proof that you own the user rights and also you may need it again once you move to another computer.

2. Start the lexican Standard Edition on your computer.
3. On the menu *Tools* select command *License...*

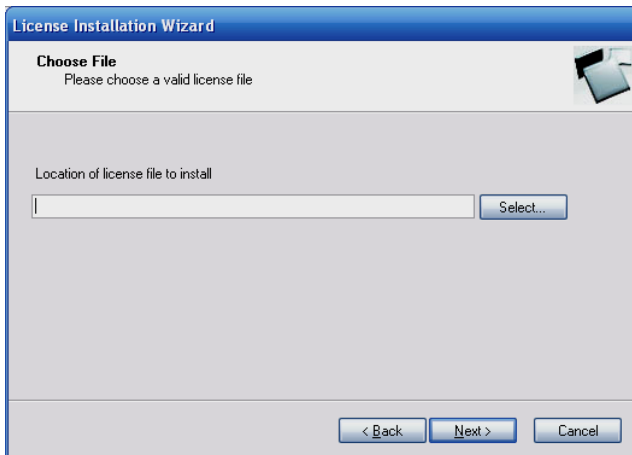

4. The lexican License Installation Wizard starts:

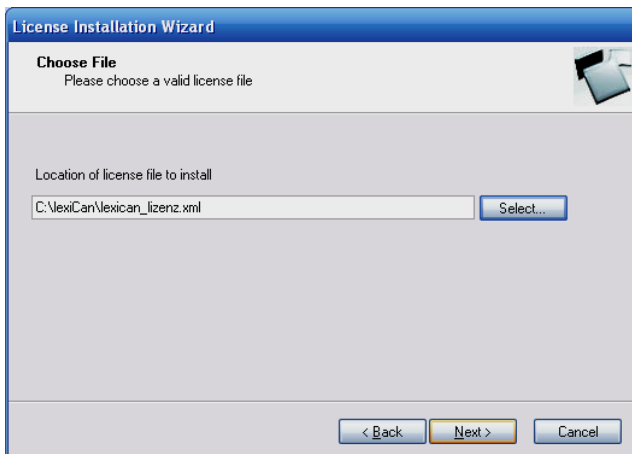

Click 'Next' to proceed.

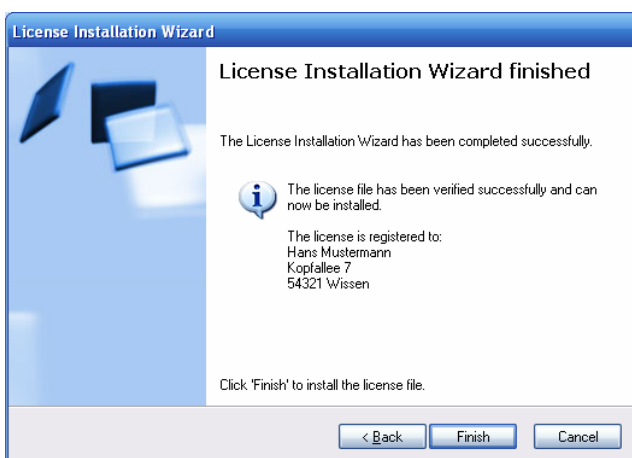

5. Click 'Select... ' to choose the location of your licence file stored in Stepp 1.

6. Click 'Next' to confirm your choice.

7. The lexican License Installation Wizard has successfully installed your li-
cense:

Click 'Finish' to complete the procedure.
Enjoy working unlimited with lexican!
